

OTHMAN QWAKNEH

Web & Mobile Software Engineer

Amman, Jordan | 0779943542 | othmanqwakneh05@gmail.com | github.com/ossmanGR45 |
ossmangr45.github.io/Othmans_portfolio

PROFILE

Web and mobile software engineer specializing in full-stack development with ASP.NET Core, React, and Flutter. Experienced in building enterprise-grade systems with role-based access control, real-time data processing, and cloud integration. Active competitive programmer with a track record of placing in regional contests. Quick to learn new technologies and committed to writing clean, maintainable code.

EXPERIENCE

Software Engineering Intern — Tulips Technology

Apr 2026 – Jul 2026 (upcoming)

- Three-month internship focused on hands-on software development, applying academic training in a professional engineering environment.

COMPETITIONS & ACHIEVEMENTS

- 2nd Place — ACM JU Problem Solving Mini Contest 2.0, Amman (Mar 2024)
- 3rd Place — ACM JU Problem Solving Mini Contest 1.0, Amman (Mar 2023)
- 12th Place — Jordanian Collegiate Programming Contest (JCPC), Amman (Nov 2024)
- 13th Place — Jordanian Collegiate Programming Contest (JCPC), Amman (Nov 2023)

PROJECTS

Risk Management System for the University of Jordan — ASP.NET Core, React, Entity Framework Core

- Designed and implemented a full-cycle enterprise web application featuring a multi-stage workflow with automated status transitions and role-based access control (RBAC).
- Engineered a dynamic assessment engine that calculates real-time risk scores and generates interactive heat-map visualizations for proactive and reactive risk profiling.
- Integrated a comprehensive audit trail and evidence-reporting module to support administrative compliance, secure data persistence, and system traceability.

E-Government Issue Reporting Mobile App — Flutter, Firebase

- Built a cross-platform mobile application enabling citizens to report local infrastructure and civic issues directly to government agencies.
- Integrated Firebase for secure user authentication and scalable cloud storage for multimedia issue evidence.
- Implemented real-time backend synchronization for live issue tracking, status updates, and agency feedback loops.

University Form Submission & Review Platform — HTML5, CSS3, JavaScript

- Collaborated with an Agile team to build a lightweight, web-based platform streamlining university administrative workflows and form management.
- Developed the frontend with structured input validation and an intuitive user interface.
- Implemented reviewer feedback workflows and status tracking to optimize communication between students and university administration.

EDUCATION

University of Jordan

2022 – 2026

Bachelor in CIS (Computer Information Systems)

TECHNICAL SKILLS

Languages: C++, Dart, C#, JavaScript, HTML5, CSS3

Frameworks & Tools: ASP.NET Core, Entity Framework Core, React, Flutter, Firebase, Git

Core Strengths: Problem-Solving, Project Management, Time Management, Communication, Team Collaboration

LANGUAGES

Arabic — Mother tongue | English — B1
